ABOUT THE TAVOR

The dynamic changes in the battlefield, threats of global terrorism and demanding combat situations, generated a necessity for a versatile, innovative and technologically advanced weapon.

With the complexity and diversity of defense and security challenges accelerating at an unprecedented rate, IWI set out to design, test and prove the ultimate assault rifle.

The TAVOR Assault Rifle was created to answer these adversities.

The TAVOR Assault Rifle was developed in close cooperation with Israel Defense Forces (IDF) and today all IDF Infantry Units and Special Forces deploy the TAVOR as their primary assault rifle. The TAVOR line of Assault Rifles is also operated by Governmental entities and Military and Police units, around the world.

The TAVOR was rigorously tested by the IDF on all terrains and performed flawlessly demonstrating that with its superior precision, accuracy, reliability and enhanced human ergonomics, the TAVOR distinguish itself as the ultimate weapon of the 21st century.

In 2014 the TAVOR Assault Rifle was selected by American Rifleman Magazine for the prestigious Golden Bullseye Award as the Rifle of the Year. This award is a symbol of excellence and innovation in firearms.

ADVANTAGES AND BENEFITS

- Bullpup configuration
- Optimized ergonomic design
- Rear center of gravity
- 30-round NATO magazine capacity
- Day-to-night optics conversion without re-zeroing
- Fully ambidextrous
- Foldable back-up sights which include tritium for night combat
- Manufactured out of high strength impact modified polymer, providing a strong but light frame
- 6-points for support: stable while shooting in prone position, sitting, kneeling, and standing, firing under arm and from the hip
- Minimum operator and armorer level maintenance, cost effective

FEATURES

- Simple field stripping into only 2 parts, no need for special tools
- Last round catch
- Corrosion-resistant metal parts
- 100% interchangeability
- Flip up back-up sight
- Available also in semi-automatic version
- Integrated reflex sight (optional)
- Available in 9X19mm
- Long Picatinny rail versions

TAVOR | TECHNICAL DATA
