# ABOUT THE ARAD-7 ASSAULT RIFLE

## BATTLE ASSAULT RIFLE

The IWI ARAD-7 is designed for infantry use, Law Enforcement and Special Forces units. Complying with the stringent NATO standards for small arms, including environmental standards, it is rugged and dependable.

The IWI ARAD-7 is specifically made to function in any combat environment. Its modularity and high accuracy result from the semi-automatic, short-stroke gas piston design, hammer forged chromelined barrel and tight manufacturing tolerances. As a result, the operator can rapidly and accurately engage multiple threats from about 800-1,000 meters.

The IWI ARAD-7 equipped with a long upper Picatinny rail enabling the operator to utilize a variety of optics and other attachments to meet specific battlefield conditions. The integral Picatinny rail is part of the upper receiver, ensuring zero is maintained even when adding night-time devices. In addition, 360-degree M-LOK rails are positioned at 7 angles around the handguard. Included is an ergonomic telescopic folding buttstock allowing the operator to adjust the length to fit their particular needs. The weapon is 100% ambidextrous, and its modular structure enables the operator to easily dismantle and change barrels. The Gas Regulator has 3 positions which allow for constant operation in all environmental conditions.

The IWI ARAD-7 can be configured with a multitude of accessories, including buttstocks, muzzle devices, suppressors, pistol grips and more.

## ADVANTAGES AND BENEFITS

---

- Designed for minimum operator and armorer level maintenance, thus reducing maintenance and life cycle costs
- 100% interchangeability, reducing the overall costs of the system
- All the metal parts of the weapon are corrosion resistant
- Quick detachable barrel can be easily replaced by the user
- Uses NATO/MIL-STD 7.62x51mm steel, aluminum or polymer magazines
- Two-Stage trigger for increased accuracy

## FEATURES

---

- Short-stroke gas piston
- Multi caliber by barrel change 6.5C and 7.62x51
- 3 position gas regulator - Regular, Suppressed and Extreme conditions
- MIL-STD 1913/M LOK accessory rails at the every 45 degrees around the whole handguard
- Hard-anodized monolithic aluminum MIL-STD 1913 Rail in the upper receiver
- Fully ambidextrous

# ARAD-7 ASSAULT RIFLE | OPTIONAL ACCESSORIES

## MEPRO 21

Day/night self illuminated reflex sight

## MEPRO M5

Red dot sight

## MEPRO O2

Red dot sight

## MEPRO MOR

Multi-purpose reflex sight with two laser pointers (Visible and IR)

## MEPRO MX3 F/T

X3 magnifier with integrated side flip adaptor

## MEPRO X4

Day scope with x4 magnification

## MEPRO MINIMON L

Multi-functional night vision mini-monocular (side flip adaptor - optional)

## MEPRO STING

Dual wavelength laser pointer

## REMOVABLE IRON SIGHT

Tritium option available

## ASSAULT GRIP

With quick detach

## BIPOD

## SUPPRESSOR

7.62x51
